## Skills

**Languages:** Swift (incl. SwiftUI), Objective C, Core Java, Dart (Flutter), JavaScript, HTML, CSS

**Mobile Development:** iOS SDK, UIKit, SwiftUI, Combine, Core Data, Core Location, AutoLayout, Push Notifications, URLSession, SwiftData, Swift Testing, Swift Concurrency, AVFoundation, Core Animation

**Tools & IDE:** Xcode, Android Studio, Instruments, Charles Proxy, Postman

**Backend & Databases:** REST APIs, JSON, MySQL, SQLite, Realm, Core Data, Firebase Realtime/Firestore

**Testing:** XCTest, XCUITest, Snapshot Testing, Test Driven Development (TDD), Perfecto, xFramium

**DevOps & CI/CD:** Jenkins, Git, GitHub, SourceTree, SVN, Artifactory

**Project Management & Agile Tools:** JIRA, Confluence, Version One, Microsoft Teams, Zoom, WebEx

**Analytics & Monitoring:** Datadog, Amplitude Analytics, Firebase Analytics, Crashlytics

**APIs & SDKs:** Radar SDK, AWS Connect SDK, PSPDFKit, PDFTron, DRM

**Dependency & Code Quality:** CocoaPods, Swift Package Manager (SPM), Carthage, SwiftLint, SonarQube, Artifactory

**Soft Skills & Practices:** Agile/Scrum, Cross-functional collaboration, Code Reviews, Mentoring, Technical documentation, Performance optimization.

## Work Experience

### Infosys Ltd, Pune

Jul 2022 - Present

#### Senior Consultant

- Led development of core modules for Allstate Insurance's iOS applications. Delivered features aligned with client vision and user needs.
- Optimized app performance for edge cases and UI responsiveness; ensured industry-grade stability.
- Managed cross-functional collaboration and product improvement cycles for timely, high-quality delivery.

### Credit Suisse, Pune

Feb 2020 - Jul 2022

#### Exempt Non-Officer

- Led the development of key features for the Credit Suisse CSX Banking App, providing seamless banking services to over 5 million users.
- Improved app speed by 30%, making the app more responsive and increasing user satisfaction.

### Tata Consultancy Services, Mumbai & Pune

Jun 2016 - Feb 2020

#### Information Technology Analyst

- Developed, maintained, and optimized enterprise iOS applications for global clients across the banking and IT sectors.
- Collaborated with cross-functional onshore and offshore teams to deliver scalable features in fast-paced Agile environments.
- Played a key role in improving app reliability and usability by addressing edge cases and reducing crash rates.

### Musafir.com, Mumbai

Feb 2016 - Jun 2016

#### iOS Developer

- Developed and integrated the app using Swift, enabling users to book flights, hotels, and holiday packages.
- Refactored key features for performance improvements and introduced support for the Arabic language to expand the app's reach.

### Reliance Jio Infocomm, Mumbai

Mar 2014 - Feb 2016

#### Information Technology Analyst

- Assisted senior developers in feature development, bug fixing, and performance improvements across iOS projects.
- Gained hands-on experience in working with APIs, offline data handling, media playback, and content management systems, QA testing, CMS uploads, and app versioning for releases.

## Education

### SITRC Nashik

B.E. in Computer Science and Engineering

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Mobile Computing, Data Structures and Algorithms, Operating Systems, Computer Networks, Information Retrieval

Aug 2009 - Jun 2013

## Project Work

- **Allstate Mobile App:** Worked on app stability, performance tuning, and modular feature development.  
*Infosys | iOS (Swift, SwiftUI) — App Store Link*
- **Credit Suisse – CSX Banking App:** Delivered secure banking features used by 5M+ users.  
*Credit Suisse | iOS (Swift, SwiftUI) — App Store Link*
- **Cisco SalesConnect:** Developed internal secure login and real-time sales enablement features.  
*TCS | iOS (Objective-C, UIKit) — App Store Link*
- **Barclays Mobile Banking App:** Built and enhanced secure financial flows for Indian and UK banking users.  
*TCS | iOS (Swift, UIKit) — App Store Link*
- **Musafir Travel App:** Refactored for performance and Arabic localization support.  
*Musafir | iOS (Objective-C, Localization) — App Store Link (if still active)*
- **Jio Music, Jio Cinemas, Jio Mags:** Collaborated on CMS integration and user experience optimization.  
*Reliance Jio | iOS*

## Awards and Certificates

- Mentor juniors and work to get better at problem solving, efficient coding.
- SwiftUI, Vapor 3, Postman learning on Udemy
- Technical Excellence, Star Team, On-the-Spot Award and client appreciations at work.
